The Star and Sentinel.

A DREAM.

BY MAUD PERCY.

Alone I stood on the sanded shores
Of a deep but rolling sea,
And heard the music of distant oars
Come faint but merrily;
And as I gazed o'er the waves so blue
I saw a gleaming sail,
That danced unto the wind's low moan;
And then a boatman pale
Methought stepped on the pebbly strand,
And whispered to me of a "better land."

He pointed to the gates of gold
Around yon shining dome,
And told of glories I'd behold
Within that blissful home;
When, lo! as I stood in wonder bent,
He turned him from the shore,
I caught one gleam of the snow white sail,
And stood lone as before—
Alone, alone, with the moaning sea,
For the bark had gone, nor waited me.

I awoke, yet o'er me crept a fear,
But with this glimpse of Heaven
Came a new light. My dream was clear,
My trust to God was given,
In the boatman pale HOPE'S form I see,
The frail BARK is the SOUL,
The SEA is this mortal life of ours,
While God reigns o'er the whole;
And on Heaven's shore, with a waiting hand,
He beckons us on towards the spirit-land.

The Star & Sentinel.

Wednesday, May 29, 1867.

TO THE READERS OF "THE STAR AND SENTINEL."

The announcements made in the papers of last week have prepared all our readers for the formal statement we make to-day, that the ownership and editorial conduct of the combined paper, THE STAR AND SENTINEL, have passed into the hands of the undersigned. The union has been effected upon terms satisfactory to all the persons immediately concerned, and we trust it will be found to be promotive of the interests of the great political organization with which we are indentified, and with whose growth and prosperity the highest welfare of a Nation, just saved from the treason of men who were its and our enemies, is closely intertwined.

It will be our aim to maintain the vital Republican principles which have given our party its great glory, and its valid claim to the gratitude of all lovers of their country and of mankind; and which have made for it a friend of every man, everywhere, who labors for the overthrow of despotism, whose efforts and sympathies are for the amelioration of the condition of the oppressed, and whose cherished purpose is the real enlargement of the area of Freedom. No party ever deserved devoted friends more than that whose flag we follow, and none has in the same period of time, achieved so much. It is less than eleven years since it fought its first battle; and less than seven since it won its first victory. In the spring of 1861 it received in its care the government of the Union, and at once met, and ultimately overthrew, the most formidable conspiracy against Liberty ever organized. It has gathered and is gathering the fruits of this splendid Triumph, in offering to the defeated Rebels of the South a plan of Reconstruction which, if carried out in all its parts, will in due time restore them to their old place in the Union as a part of its governing power, "clothed and in their right mind," purged of all the old elements of weakness, and their old institution of vileness, and fit to claim recognition as Free Governments guaranteeing to every citizen freedom of speech, and the perfect and equal protection of the law.

A party thus positive and progressive must needs have enemies. Ours has them, bitter and yet harmless. The glorious past is secure. The future also is ours. It will gather laurels from every field, for it has energy and fidelity for its agencies, patriotism for its motive, and Truth and Humanity for its objects. A Nation saved from the jaws of death into which it was hurried by the Democratic party in 1861, will never forget the faithful men who sustained its undermined credit, carried aloft its trailed banner, asserted the majesty of its defied laws, and called to the field faithful millions to defend every sentiment and interest which a brave people hold dear; nor can they forget those debauched and shivering northern democratic leaders, the same in spirit and theory now as then, who said not a word, and did not a deed in vindication of the outraged sovereignty of the Government, during those dark and fearful days. When Americans have forgotten all the stern teachings of the recent past, and have determined to overlook and forget the shocking Treason of which they were well nigh the hopeless victims; when memory shall cease to play, and judgment to act, and patriotism to inspire, then we may look for a restoration to power in the Nation, of the wicked men whose incipient crimes were the occasion of all the bloodshed of the past five years. Until then, the Republican organization will continue to direct the course of the Republic in paths of peace, and justice, and prosperity.

Whilst we are thus distinctly and distinctively REPUBLICAN in our political principles, we propose not to neglect the character of our journal as a Newspaper. On the other hand we propose to make its well-filled columns the repository of the General News of the Day, the News of the adjoining Counties, the Condition of the Markets at home and abroad, and especially such LOCAL MATTERS as will constitute it a Mirror of the Life of our people. To this end, we request our friends to inform us promptly of incidents in their respective neighborhoods, the particulars of the sale of Real Estate made, and all items indicating the condition of business.

We intend to furnish our readers with as good a Newspaper as our labor and means can prepare, and we trust that the relations now constituted between ourselves and a body of patrons of whom any publishers might be proud, may long continue; and that the kind feeling with which we begin our enterprise may be maintained as long as we are faithful to the Cause of the Country.

THE ACCOUNTS OF SUBSCRIBERS.

Each mail subscriber can ascertain the state of his account by referring to the small slip of paper containing his name. The date following it indicates the period up to which his subscription has been paid.

Those subcribers to the *Sentinel* who have paid in advance, will receive the "*Star & Sentinel*" up to the date paid for. So with subscribers to the *Star*, who had paid in advance.

Those persons who were subscribers to both the *Star* and the *Sentinel*, whose accounts were paid in advance, will receive the "*Star & Sentinel*" up to the date to which the two payments carry them, as indicated on the slip containing the names on this No. of the paper.

Those subscribers to either of those papers, who had not paid in advance, can settle their accounts—with Mr. HARPER for the *Sentinel*—and with Mr. MCILHENNY'S Administrator for the *Star*—in each case up to the 23rd of May, 1867.—*The new Firm begins on that day.*

Subscribers desiring to take advantage of our advance terms, ($2 per annum,) will please call at an early date. Non-resident subscribers can remit by mail, procuring P. Office money orders, when practicable.

CONFISCATION.

A Second Letter from Hon. Thaddeus Stevens.

There is no doubt that a relief inducement to prompt Reconstruction in the South, under the Congressional plan, is an apprehension that, if this plan be rejected or grudgingly accepted, it will be followed by a sterner policy, of which Confiscation will form a part. The mob violence which is prevailing in most of the Insurrectionary States, the opposition to Free Discussion, and the manifest purpose of the governing and wealthy classes to control events by fair means if they can and by foul means if necessary, have naturally awakened solicitude lest in the process of Reconstruction, reactionary principles should still prevail, instead of those Free principles which are characteristic of the political institutions and systems of the Northern States. We understand that Senator WILSON of Massachusetts who started upon his recent tour through the South with one set of convictions, has returned with the idea that it may yet be *necessary* to introduce a mild system of Confiscation before the Southern States can be considered fit for restoration to political power in the Union against which they causelessly and cruelly rebelled. The bloody reception Judge KELLEY had at Mobile tends to confirm the opinion that the South has not yet learned the lessons of the war; or, having learned, is unwilling to accept them.

In this emergency we are glad to know that the great Republican leader, to whom the country is more indebted for what has been accomplished than any other man, Hon. THADDEUS STEVENS, is still firm in his purpose to demand the enactment of a measure which will secure compensation to citizens of the Union who suffered from the military movements of our armies from Rebel raids, and will at the same time work a healthy change in Southern Society. Our readers will remember Mr. STEVEN'S letter in April last, on this subject. We have the pleasure to-day of subjoining another letter, written to Mr. Senator MCCONAUGHY of this county, who has placed it at our disposal for publication. The case is powerfully but briefly presented, and the letter will attract the attention of the country, as well from the position of its author as the importance of the topic it discusses:

LANCASTER, PA., MAY 20th, 1867.

DEAR SIR:—Short as your letter is, I fear I cannot answer it without violating an injunction of my medical adviser, "not to suffer myself to become excited." You live in a region which was two or three times invaded by the armies of Jefferson Davis. In the counties of Bedford, Fulton, Franklin, Cumberland, Adams and York, they visited almost every farmer and other inhabitant, and pulverized them of their horses, cattle, provisions, wagons, and money when found. Besides some detached cases, they laid in ashes one thriving village of 6000 people, and turned the inhabitants houseless into the streets, to seek shelter in fence corners. No provision has ever been made, or is now making, to re-imburse the plundered citizens.

By the law of nations, a government makes no compensation for damages done by an invading army, unless such government be victorious, when it always provides by treaty for the payment by the vanquished enemy. A government which neglects to make such provision on behalf of its plundered citizens, is basely negligent of its duty. A quasi peace exists between the late belligerents, the terms of which are dictated wholly by Congress which is under the control of the Republican party. Nothing but the proceeds of the confiscation of a small portion of the property of wealthy rebels can be applied to pay the damages inflicted by these marauders, unless it be paid out of the Treasury of the United States. A few Republican meteors, always erratic in their course, are flitting through and exploding in the Republican atmosphere. They attract sufficient public attention to enable them to assure the wealthy rebels who inflicted this injury, that they need fear no confiscation, that nobody of any note in the North is in favor of imposing such punishment for the sake of remuneration or of justice. They assure them that nothing shall be taken from Aiken's estate of millions, from Hampton, Davis, Orr, Faulkner, or from a thousand others who are still worth their hundreds of thousands, to re-imburse the loyal men, North and South, who were plundered of their estates; and to aid your poor neighbors to rebuild their humble tenements.

It is scarcely to be endured that Congress for two sessions, should sit indifferent to these sufferings and take no steps to enforce these rights. These remarks apply to large portions of Maryland, of West Virginia, Ohio, Indiana and Missouri, as well as to the slave States.

He who can patiently listen to that putrid humanity which we now see propagated, has more command of himself than I have. Indeed it looks as if we were still to add to the burden of our taxation to defray the expenses of transportation and the ovation of triumphant traitors. But I must stop, or I shall commit the fault against which I have been warned.

With great respect,
Your obedient servant,
THADDEUS STEVENS.

OUR CIRCULATION.

The consolidation of the *Sentinel* and the *Star*, has given to the new paper a circulation larger by one-half than that of any paper ever published in the County.

The *Star* and *Sentinel* will be read by nearly every active business man in the county, and will reach the families of most of its substantial citizens.

We hope to increase this circulation, large as it is, for it is our purpose to print a newspaper of such merit as to be entitled to public patronage. But, whether this be so or not, it is important to advertisers to remember and appreciate the advantages we can now offer them.

OUR OFFICE.

We have made a few improvements in the paper, and intend to make others from time to time, with the view to print one of the best Family and Political Papers in the State. Nothing will be left undone on the part of the Editors to make their present relations to readers mutually pleasant.

We will occupy the old *Star* Office in Baltimore street, where we will be glad to see our friends at all times. But the rooms being small, we have contracted for the erection of an extensive addition in the rear of the present building; and will, in a few weeks, have all needed facilities for the transaction of our business.

With our improved presses, new type, and the Job type of the two offices, we have on hand special facilities for printing every kind of Job Work, to great advantage.

TO COMPLIMENTARY SUBSCRIBERS.

We send THE STAR AND SENTINEL for this week *to all* persons whose names were upon either the *Star* or the *Sentinel* list; and do so in the hope that they may be willing to take the paper. A number of persons were upon the complimentary list of each paper. As this list would have been unduly large, by the union of the two, we have concluded *to abolish it entirely*, and will open an account with *all* persons upon the list.

Those to whom this may not be agreeable, will please notify us promptly of their desire not to have the paper sent to them.

TERMS OF PUBLICATION.

THE STAR AND SENTINEL is published every Wednesday afternoon, by Messrs. Harper, McPherson and Buehler, at $2.00 per annum, in advance; or $2.50 if not paid within the year.

Advertisements, are inserted at the usual rates. A liberal reduction made to persons advertising by the quarter, half-year or year. Special notices inserted at special rates, to be agreed upon.

☞ The circulation of the STAR & SENTINEL is one half larger than that ever attained by any Journal in Adams County; and, as an advertising medium, it cannot be excelled.

JOBBING of all kinds promptly executed, and at reasonable rates.

"STEVENS HALL."

Though every School house in the State is a monument of the devotion of THADDEUS STEVENS to the great cause of General Education, the graceful act of the Trustees of Pennsylvania College in last week formally naming their new Preparatory Building, STEVENS HALL, in recognition of his active agency in the establishment and maintenance of the College, is honorable to their discernment, and must be grateful to the feelings of that great man who spent the prime of his useful and eventful life in this Town and County.

☞ WILLIAM L. SHARKEY, of Mississippi, having lost his Injunction case in the Supreme Court of the United States, has gone home, sad and sore, and still insists that Mississippi should not consent to reconstruct under the laws of Congress.

Mr. SHARKEY is a Senator elect, and is very likely to be "left out in the cold" in the new Reconstruction which is impending. "Hence these tears." He is a venerable relic of the past. He forgets that there was a Rebellion; *or that it failed.* He thinks, the Rebels should have as many rights as they would have had, if it had succeeded. Here, he differs from most of those who fought and labored to put down the Rebellion. Hereafter, loyalty will assert its rights in the South; and such men as Mr. SHARKEY are politically dead. But if it is any satisfaction to them, let their tongues waggle. Nobody cares. We don't believe in shooting a man, because he don't agree with us in opinion or speech.

☞ Democratic papers are busy justifying the murderous riot in Mobile, when Judge KELLEY undertook to speak on behalf of the Republican party.

The justification is, that Judge KELLEY said some things which were not agreeable to a portion of his hearers!—If this sort of thing is to justify shooting a public speaker, there can be no more public meetings held anywhere in the country.

The truth is, the Rebels of the South don't intend to allow free discussion, lest their past misdeeds and crimes be exposed, and a misled and betrayed people be induced to abandon their old leaders, and organize on the basis of a true Republicanism. But they are too late.—The Republican party will carry a majority of the Insurrectionary States, and continue to be the dominant party in the nation.

The men who defended the South Carolina BROOKS in his murderous assault upon Senator SUMNER, for language spoken in debate, have congenial employment now in defending the Mobile riot as they had last year in palliating the New Orleans Massacre.

☞ Col. Samuel McKee, of Kentucky defeated for re-election to Congress by about 800 majority, has issued an Address to the Union voters, in which he states that he could have had 2,000 majority, but for the votes of the returned Rebel soldiers who were allowed to vote and who all supported the Democratic candidate.

☞ The Supreme Court of the State have unanimously concurred in pronouncing unconstitutional, the act of the last Legislature, creating a special Judicial District in Schuylkill, Lebanon and Dauphin counties.

☞ Green peas made their appearance in Harrisburg, on Saturday last—price forty cents for a half peck.

Strawberries also were for sale at 75cts a box.

☞ A young boy, named Michael Kelley, in Baltimore, was sent to the Third National Bank to draw on check for $1300. He took the money, and absconded with it.

☞ Kentucky has become a very lawless State, according to the statement of the correspondent of *The Cincinnatti Gazette*, who writes:

"At a fair estimate two negroes per day in Kentucky are beaten, outraged, maimed, burned, or murdered. Under the Civil Rights law over 50 murders and more than 200 cases of outrage upon black citizens have been reported by the civil and military authorities. During the past year alone over 500 murders and outrages upon negroes have occurred in Kentucky. This only includes such cases as were officially noticed by the United States Commissioners, Civil Courts of Agents of the Freedmen's Bureau, and it is fair to presume that 100 or 200 more cases occurred which were never reported at all or acted on officially. But a single Judge in the State—the Hon. Wm. C. Goodloe, who has always been loyal, and was arraigned last Winter by the Legislature for his loyalty—has recognized the statutes passed by Congress, and admitted negro testimony into his courts. All the rest of the Judges have either ignored the law or nullified its effects."

CHARGE AGAINST A. B. SLONAKER.—In Philadelphia before United States Commissioners, Aubrey H. Smith, on Thursday, a final hearing was had in the case of A. B. Slonaker and Wilson Buckby, charged with conspiring to defraud the Government. At the hearing William Lancaster testified that after the seizure of his distillery on the information of Revenue Inspector Burns, he went to the office of Assessor Frazier, who handed the matter over to Acting Collector Buckby, at whose instance he saw Mr. Slonaker, and that he agreed to undertake the case for $200, the understanding being that for that amount the affair was to be settled. Evidence was given that Slonaker took the money. Slonaker is now Collector of Internal Revenue in one of the Philadelphia districts, and will be remembered as the individual who a few days before his appointment presented the President with a vase of wax flowers. He was on Thursday held to bail to answer the charge of defrauding the Government.

Gen. Ord, it is rumored, will issue an order shortly staying the collection of debts in Mississippi on account of the stringency in money matters. The Mayor of Mobile, recently appointed by General Sweitzne, has requested to be allowed to appoint half the police force from among the colored citizens.

NEWS OF THE COUNTIES.

York County.

A. H. Glatz, Esq., who was appointed Assessor of Internal Revenue for the adjoining Congressional District, York, Perry and Cumberland, has declined the office. Mr. John Fulton, brother of the late Assessor, is the Acting Assessor for the District.

From the report made a few days ago by the President and Directors of the Hanover Branch Railroad, we learn that the receipts for the past year were $58,562 59; the expenses $39,538 35—leaving the profits of the Road $19,024 24. The total number of passengers carried over the road during the year was 22,253; way 7,729; tons of through freight 44,687; local 4,992.

We learn from the Hanover *Spectator* that the authorities of that town are busily engaged in attending to the sanitary measures so important to the health of the community, in view of the coming warm season, such as removing every species of garbage, drainage, and other essential measures to the preservation of health. It would be well if our alleys and cellars were looked to, and if our neighboring town should stimulate the authorities of all the adjacent towns to take an interest in this important matter.

The First National, and the York County National Banks have each declared a dividend of six per cent. clear of taxes.

Franklin County.

The Cumberland Valley Quarterly Convention of Good Templars, met in Chambersburg on Wednesday evening last. There are 19 lodges of the Order in the District, 10 in Cumberland, 8 in Franklin, and 1 in Fulton—a majority of which were represented in the Convention. The proceedings were highly interesting. The next session of the Convention, in July next, will be held in Mercersburg.

CHILD LOST.—Considerable excitement was created in Chambersburg, on Saturday afternoon of week before last, by the ringing of the Court House and Market House bells for a lost child. The child had been away from home some time, and the parents becoming uneasy, on account of a party of Gypsies that had been prowling around town, who they feared had carried the child off, caused the bells to be rung. One lady declared that she had seen the Gypsies taking the child with them. During the afternoon the child was found quietly sleeping under a bed in a neighbor's house.

On Sunday afternoon of last week, ten persons, converts of the revival in progress in the Church of God in Chambersburg, were immersed in the Conococheague Creek, near the Lemos Edge Tool Factory, by the Rev. Mr. Hunter, pastor of that Church.

Fulton County.

A Convention of six delegates from each district is to meet in Harrisonville, June 8th, to consider the practicability of building a Railroad from the Broad Top Coal region to the Baltimore & Ohio railroad at or near Hancock, Md., and to adopt the necessary initiatory measures. On the same day, a Convention will be held at Hancock, for the same end.

At a meeting of the School Directors, 25 out of 72 present, the salary of the County Superintendent, was increased from $500 to $1000, 14 having voted in favor of such increase and 11 against.

Cumberland County.

The Bedford *Inquirer* of May 24th, says there is complaint of the treatment Soldiers' Orphans have received and are receiving at the establishment at White Hall, which had been selected for the maintenance of a certain number. It calls upon the State authorities to investigate the matters.

The Farmers and Mechanics Bank of Shippensburg has made a dividend of five per cent. clear of taxes.

Mr. Alpheus Dale, of Mechanicsburg, [illegible] with an accident at Columbia on Monday week. He was in charge of his market car, while the train was in motion. Unfortunately he did not secure a firm hold, his hands slipped, and he was thrown to the ground, and partially on the track. Both of his hands were seriously injured, and two wheels passed over his right hand, crushing it considerably, and rendering amputation perhaps necessary.

MESSIAH'S CONFERENCE AND TENT MEETING IN MECHANICSBURG.—A Tent will be erected in Mechanicsburg, on a lot owned by the R. R. Company, near Mr. Bryson's Warehouse, in which meetings will be held, commencing on Saturday evening, 25th inst., to continue over two Sabbaths. Three services each day. The Annual Conference of the Messiah Church will convene at the same place on Wednesday the 29th inst., at 9 o'clock, A. M.

Lancaster.

Amos Slaymaker, Esq., has been appointed Register in Bankruptcy for the 8th Congressional District.

The Democratic delegates to the State Convention are uninstructed, but are for the nomination of Judge Sharswood of Philadelphia.

Speaker Colfax is to deliver his Lecture "Across the Continent," in Lancaster, July 1st, for the last time.

The Lancaster County National Bank has made a dividend of six per cent. and the First National Bank of Strasburg, of five per cent. clear of taxation.

DEDICATION.—On Saturday last the new County Hospital was dedicated to the service of God. Rev. W[illegible] Gotwald delivered a very impressive [illegible]on, and the choir of the St. John's Lutheran church assisted in the ceremony.

[illegible]phin.

The bridge at Harrisburg is to be re-built. The contract for the building of it has been awarded to a Mr. Campbell, at $65,000.

AN OIL TRAIN BURNED—*A Grand Illumination.*—A little after dark the other evening, six car loads of oil took fire as a train was coming down the mountain near Kittanning Point, on the Pennsylvania railroad, and about two hundred barrels burned up. The flame illuminated the entire valley between the Allegheny and Brush Mountains, and for a time one of the most beautiful sights imaginable. It is not known how the oil took fire, but it is supposed it caught from a spark of the locomotive. The loss to the railroad company will be heavy. Almost an eighth of a mile of track was destroyed, the ties burned, and the rails twisted in various shapes.

THE TUNKERS.—We learn that the Annual Meeting of this denomination will be held at Pipe Creek, Md., on the 11th of June. At the Annual Meeting of 1866, held at Waynesboro', Franklin county, it was decided, "that there shall be no boarding tent put up at the place of meeting, to entertain and feed a mixed multitude, as before," but "that the Church holding the meeting shall make arrangements to receive and entertain all the brethren and sisters privately." The change in the manner of holding these meetings, so far as concerns spectators, may be stated briefly thus:

1. The delegates will assemble on Tuesday morning, instead of Saturday and Sunday, as heretofore.

2. There will, therefore, be no general gathering on Sunday, at the place of holding the business meeting; and

3. There will be no preparation for feeding any but those who are in business attendance at the meeting.

THE Chicago *Times* says that "from a traitor's prison, Jefferson Davis has gone forth to assume the place which the future will assign him, as the most colossal character in the history of his time." This is sound Democratic doctrine.

CHANGES OF PASTORATE.—Rev D. T. CARNAHAN, of the Presbyterian Church in this place preached his Farewell Sermon on Sunday last, and on Monday left for his new charge at Bellefield, near Pittsburgh. Mr. CARNAHAN, during his residence here of several years, won many friends by the suavity of his manners, the kindness of his heart and his fine social qualities. During his ministry the church has been harmonious, and considerable additions made to it. We hope that he may find in his new home a wider field for usefulness, and that prosperity may attend him. The Congregation have secured the services of Prof. EDSALL FERRIER as a stated supply for a period of three months.

It is understood that Rev. JOHN R. WARNER, of this place, Pastor of the Marsh Creek and Hunterstown Congregations, has accepted a call to the Presbyterian church of Kirkwood, in the vicinity of St. Louis; and that he expects to enter upon this field late in July. Mr. WARNER'S departure will bring great regret to the members of his Congregations, and to the public generally. He will be an acquisition to the West, and, we doubt not, has before him a career of wide usefulness and increased honor.

PROPOSED MEMORIAL CHURCH.—On last Saturday morning, a number of our citizens assembled, by invitation, at the house of J. L. SCHICK, Esq., to hear an explanation of the project for the erection of a Memorial Church in Gettysburg by the Methodist Episcopal denomination. The idea was conceived by Rev. B. H. CREAVER, the Presiding Elder of this district, who has given much time to its elaboration. It is now in a state of considerable forwardness; and there is little doubt that it will be accomplished. The purpose is to raise $50,000.—An Association has been formed, of which Gen. GEARY is President. Tickets of membership can be procured for $5. After a full explanation and a general interchange of views, the following resolution, offered by Mr. MCPHERSON, was unanimously adopted:

Resolved, That we have heard with pleasure and interest the statement of Rev. B. H. CREAVER, in regard to the project to erect a Memorial Church in Gettysburg, under the supervision of the Methodist Episcopal Church, and believing the project to be practicable and eminently commendable, we pledge our cordial co operation in the movement.

The church is to be of granite.

GETTYSBURG BUILDING ASSOCIATION.—All the Stock in this Association has been taken—500 shares at $250 each—making the capital $125,000. The last three shares were sought by several parties, and brought a premium of $1.30 per share. The Association will be of great benefit to the town, will stimulate the spirit of improvement, and increase the facilities for building. It is in the hands of public-spirited citizens who will secure for the community all the benefits it can confer.

THE ADAMS COUNTY AGRICULTURAL SOCIETY.—The Fifth Annual Fair of this Society will be held on the Fair Grounds in Gettysburg, in September next. The Board of Managers are pushing the improvements with great energy. They have bought 18 acres of land with a front on High Street of 660 feet, and have laid out a half-mile track, under the general direction of JOSEPH S. GITT, Esq., civil engineer. This track when completed, it is claimed will be the best half-mile track in the country. The grounds are to be enclosed by the first of July, and the track will be fit for use about that time. The entrance to it is but four squares from the Diamond, and is approached by a good pavement up to the gate. The prospects of a good Fair are very promising, and all that is necessary to make it a great success is that the friends of Agriculture, of Domestic Industry, and all who feel a desire to promote the prosperity of the County, should lend a helping hand. Within a few years, the productiveness of our County has largely increased; but there is no reason why the progress of our farmers may not be more rapid in the future than it has been in the past. Among the beneficent agencies at work, none has been more widely felt than the Agricultural Society which for four years had its headquarters at Bendersville, but has now been removed to a location in this place made memorable by its associations with the great war for the Union. The Managers are trying to sell Life tickets at $10, and will take in exchange the Season tickets now held, at their cost, $1. Many of our citizens will prefer to have a Life ticket; and a proper effort will realize as much from this source as the Managers require for present purposes. Let all unite to make the Fair an overwhelming success.

We understand that the fence around the Fair Grounds at Bendersville has been torn down, for removal to the new Grounds at Gettysburg. The Managers have received offers from various farmers and others owning teams to do one or more days' hauling—and it is hoped that this material may be removed without much cost to the Society.

OUR NEW COLLECTOR OF INTERNAL REVENUE.—We had recently a visit from the newly-appointed Collector, CHAS. W. ASHCOM, Esq., of Hopewell, Bedford county. Mr. ASHCOM is a clear-headed business man, and a gentleman of unimpeachable personal character, and of sound political principles. To those who have known him as long as the writer of this, no assurance is necessary that he will well discharge the duties of his responsible office. We understand that it is his purpose to collect the Revenue himself in Bedford, Franklin and Adams counties, giving Fulton and Somerset to Deputy Collectors. This will require him to spend a few days in each month in Gettysburg, of which due notice will be given. It is understood that the tax assessments have been greatly reduced by changes in the law.

STATE TAX ON NATIONAL BANK STOCK.—The Legislature at the late session, passed a bill declaring National Bank Stock subject to taxation at the same rate as the shares of State banks, *in the hands of the individual holders of such shares.* The rate is three mills for every dollar of the value of such stock, which shall be annually assessed by assessors appointed for the purpose by the Auditor General and State Treasurer.—When the assessment is made, lists shall be returned to the Commissioners of the city or county in which said bank is located, and the amount due the Commonwealth upon such assessment shall be collected in the manner in which taxes upon other personal property are now collectable. Each assessor is to receive for compensation, seven per ct. upon every dollar of tax assessed by him.

But another section provides a way of escape from this tax in the following words:

SECTION 5. That should any national, or State, Bank of this Commonwealth, pay to the State treasurer a tax of one per cent. per annum, upon the par value of the capital stock thereof, the shareholders of said bank shall be exempt from all other taxation, on the value of said shares.

This law is of great interest and importance to Banks, and their stockholders.

CHURCH IMPROVEMENT.—The congregation of St. James' church (Lutheran), Rev. E. BERDENBAUGH, Pastor, are thoroughly refitting their church. The pulpit and pews have been remodeled, and the walls handsomely frescoed. The aisles and pews are to be all carpeted. Most of the work has been already done, and the Committee expect to have the building ready for service on Sabbath a week. The church will be one of the handsomest in the borough. The Committee having charge of the repairs deserve credit for the taste and energy displayed by them.

COLLEGE ITEMS.—At a meeting of the Board of Trustees of Pennsylvania College on Wednesday last, the resignation of Prof. F. A. MUHLENBERG, jr., as Professor of Ancient Languages was accepted, to take effect at the close of the present session, and the following resolution unanimously adopted:

Resolved, That in accepting the resignation of Prof. F. A. Muhlenberg, jr., Franklin Professor of Ancient Languages in this Institution, we cheerfully bear testimony to the ability and fidelity with which he has discharged the duties of his Professorship—that we regret he has deemed it his duty to offer his resignation, and that we hereby tender to him the assurance of the best wishes of this Board in his retirement from its service.

Prof. Muhlenberg goes hence to accept the Presidency of the Allentown Collegiate Institute. There is an expression of general regret at the Professor's proposed departure, so highly is he esteemed for his merits as a man, his public spirit as a citizen, and his accomplishments as a Teacher.

The nomination of a successor to Professor Muhlenberg, devolves on the Pennsylvania Synod, which will meet next month. The nomination thus made, to be subject to the approval of the Board of Trustees.

The Board directed that the erection of the main Building for the Preparatory Department be at once proceeded with. We understand the Committee have accepted the bid of Mr. MCCOY, of Chambersburg, who is the lowest bidder, and proposes to put up the building for $18,500. It is to be located on the brow of the hill on the Carlisle road beyond the present residence of Prof. Ehrhart, and will occupy a commanding position—being part of the ground fought over by the 11th Corps on the 1st of July, 1863. It will be a substantial brick building, and will accommodate about 65 pupils.

The name unanimously and very fitly given to the new building is the STEVENS HALL in compliment to the venerable and veteran champion of Education in Pennsylvania. The resolution was couched in the following terms, viz:

Resolved, That in token of our appreciation of the valuable services rendered to the cause of Education by the Hon. THADDEUS STEVENS, and of his constant and active interest in the growth of Pennsylvania College, the name of the Preparatory Building be the *Stevens Hall.*

THE ATLANTIC MONTHLY FOR JUNE is upon our table, with a table of contents varied and interesting. That on Russian America, recently ceded to the U. S., is opportune. The interest and value of this sterling Monthly are well sustained. TICKNOR & FIELDS, the publishers, announce three new editions of CHARLES DICKENS' works, carefully revised by the author.—They are called: The Diamond Edition, the Charles Dickens' Edition, and the Illustrated Library Edition. As Mr. DICKENS is interested pecuniarily in the profits of this Reprint of his works, and has revised them specially for it, and it will be offered on terms as favorable as any other, its claims upon the reading Public will be very strong. Catalogues can be had of the Publishers, with full particulars.

THE HUNTINGDON AND BROAD TOP RAILROAD.—For the information of the public, and particularly those intending to visit a fashionable summer resort, such as Bedford Springs or the Broad Top Mountain House, we have the pleasure of stating that an additional passenger train has been placed on the Huntingdon and Broad Top railroad, thus giving travelers the benefit of two daily trains each way between Huntingdon and Mount Dallas and Dudley. At Huntingdon the road connects with the Pennsylvania line and runs southward via M'Connellstown, Pleasant Grove, Marklesburg, Coffee Run, Cove, Saxton, Riddlesburg, Hopewell and Bloody Run, to Mount Dallas, which is but six miles from Bedford, to which place passengers are conveyed in commodious hacks. From Saxton is a branch railroad known as Shoup's Run Branch, which runs via Coalmont to Dudley, where connections are made with a reliable line of hacks for Broad Top City. The Express train leaves Huntingdon at 7.45 A.M., reach Mount Dallas at 10.59 A. M. The Mail train leaves Huntingdon at 6.00 P.M., arriving at Mount Dallas at 8.27 P.M. Returning, trains leave Mount Dallas at 6.10 A.M. and 1.30 P.M. and reach Huntingdon at 9.10 A.M. and 4.45 P.M. Baggage is checked through to Mount Dallas or Dudley, from any point on the line of the Pennsylvania railroad. Passengers are afforded ample time for meals at Huntington. The Huntingdon and Broad Top road is under the supervision of Mr. J. M'KILLIPS, the Superintendent, who is an experienced and skilful railroader.

EXPLANATION.—Although we have taken a good deal of care in consolidating the lists of subscribers to the *Star* and to the *Sentinel*—omitting duplicates, and re-arranging packages—some mistakes may have been made. Should there be error in the address of any of our subscribers, they will please advise us promptly, that we may correct.

TOWN SUBSCRIBERS.—Having employed a new Carrier, some of our town subscribers may be missed. In such case they will please promptly report at the office.

SEND IN LOCALS.—Our friends in the townships can materially aid us in getting up our interesting local department, by promptly sending us neighborhood news of general interest, viz:—Real Estate Sales, Improvements, Accidents, &c. We shall at times be under obligations to you for such items. Don't forget it.

PROCEEDINGS OF THE TOWN COUNCIL.—The Town Council met on Monday evening last. Petitions were presented for the passage of an Ordinance to prevent the running at large of cows, within the Borough limits; also, remonstrances against the same. Council voted down the proposed ordinance.

A resolution was passed, ordering the grading and paving of Stratton street, between York and Middle streets.

A resolution was also passed directing the repair of Carlisle street, and the Public Square, and certain alleys.

The Bounty Account, as audited, was directed to be published. Adjourned.

☞ About six weeks ago, a man named John Glum, went from Hanover to Baltimore, in search of employment, which he obtained at Mr. Price's, on Loudenslager's Hill. Shortly after his arrival there, he was bitten by a rabid dog, but feeling no ill effects from the wound, he paid little attention to it, concluding he had recovered. On Saturday week, however, he was horrified at the discovery that he was actually going mad. Symptoms of hydrophobia were unmistakable, and about 11 o'clock, P. M. he became so unmanageable as to necessitate his removal to Bayview Asylum, where he expired, in great agony, on the 19th.

☞ It will gratify the numerous Adams county friends of S. Addison Irwin, Esq., of Chicago, to learn that he has recently been re-elected Corporation Counsel of that City, under circumstances highly flattering to this tried and faithful officer.

TO ADVERTISERS.—The confusion incident to the consolidation of the two offices, and the re-setting of advertisements, compels the omission of a number of advertisements this week, which will appear in our next. In a few days we hope to get things sufficiently in order to move along smoothly.

LARGE COLT.—We are informed that Samuel March, Esq., of Reading township, is the owner of a two year old colt which weighs 1,080 pounds.

RAILROAD EXTENSION.—It is proposed to make a railroad from Frederick City to Littlestown. It ought certainly to be made along the Monocacy and Rock Creek and extended to Gettysburg whence a road may soon be expected to be made on a direct line to York and Philadelphia. The following roads are also in contemplation:—From Harrisburg to Dillsburg, and from Frederick to Washington, leaving a gap of only about 20 miles of an easy grade from Dillsburg to Gettysburg, which could soon be filled up, forming a direct route from Washington to Harrisburg, and from there Northward to the lakes. Let therefore the proposed road be made to Gettysburg, and the whole line will soon be made, to the profit of the community and the stockholders.

P. S. The *Compiler* of 27th states that Messrs Joseph S. Gitt and P. Harry Irwin, employed to survey a line for the proposed Railroad from Littlestown to Frederick commenced at the former place on Friday, the 10th instant, and reached the latter on Friday following. A line of very easy grades was found, and of only thirty miles in length, or three miles less than the public road. The line was run into the western end of Frederick. Another route will be surveyed, starting from the Depot, in the eastern section of the city, and running to Worman's mill, there connecting with the line already surveyed. At Woodsboro', it will diverge from this line to the left, by Double Pipe Creek, leaving Taneytown to the right, by which it is expected that a further reduction in distance can be effected. With so favorable a survey, it is hoped that the friends of the enterprise will be stimulated to such efforts as will secure its early success.

SENTENCED.—At the Orphan's Court, last Wednesday, the application for a new trial for Basil Little, convicted at the April sessions of robbing Wm. Morgan of some $80 in money, was withdrawn, and he was sentenced to the Eastern Penitentiary for one year.

A tavern license was granted to J. A. H. Reather, at Middletown.

WATER COMPANY.—At the annual election for Managers of the Gettysburg Water Company, on Saturday week, the following persons were chosen: George W. McClellan, George Swope, E. B. Buehler, S. R. Russell and H. J. Stahle. The Board organized by the re-appointment of Geo. W. McClellan as President, and S. R. Russell as Secretary and Treasurer. David Sweeney is Collector of Water Rents.

ADMITTED TO THE BAR.—We observe from a late number of the La Rue (O.) *Independent* that our former townsman, REFUS W. BAILEY, Esq., was admitted to the Bar of Ohio, at Urbana, on the 16th inst. Mr. BAILEY graduated in March in the Law Department of the University of Michigan, and has spent the intervening months in the law office of Judge Brown, of Marion. We congratulate our young friend on the promising opening of his professional career, assured that his devotion to business, his talents, and his reliable and substantial qualities will not fail to win the respect and confidence of the community in which he may reside.

☞ At a meeting of the Pennsylvania State Temperance Society, on Friday the 17th, George H. Stuart, of Philadelphia, was elected President. Hon. Thaddeus Stevens is one of the Vice Presidents, and Rev. Dr. Schmucker is a member of the Board of Managers for Adams county. The Corresponding Secretary is Robert M. Foust, Esq., of Philadelphia.

THE CROPS IN OHIO.—A correspondent from the interior of Ohio reports a very backward spring, and that the farmers have done little planting yet. The fruit prospect is very good. The wheat crop will be light owing to the small breadth sown. But, in Indiana, Illinois, Michigan, and most of the Western States, a large crop is expected.—Flour is worth $17 per barrel; and money is scarce and high.

RAILROAD COLLISION.—On Friday of week before last a collision took place between the passenger train on the Littlestown Railroad and a car which had been left on the track by the repair hands. Quite a smash-up was the consequence, the engine being very much damaged, and other injury done. Fortunately no person was seriously hurt.

"THE GETTYSBURG ASYLUM."—On the 27th, Attorney General BREWSTER lodged information in the Supreme Court of the State against the corporation referred to, praying that the lottery scheme be prohibited, and that its corporate rights be forfeited by reason of various abuses of their powers. The case will be argued July 3d, in Philadelphia.

DIAMOND CHURN.—Messrs. WIBLE, BUEHLER & Co., who purchased the right to the celebrated Diamond Churn for Adams county, and who were unable to supply the demand for want of castings, are now prepared to furnish the Churns complete. This churn is without a rival in simplicity of construction, and will churn more butter in the same time than any churn in market. It churns butter in from one to three minutes. They can be had in Gettysburg, at C. H. BUEHLER'S Ware-room; at Green Mount P. O.; at WM. WIBLE'S, on Harrisburg road, and at SAMUEL OVERHOLTZER'S, in Hampton.

HATS, CAPS, &c.—Col. S. S. MCCREARY has just received from the City a new supply of latest style of Hats, Caps, &c., which he is offering at reduced rates, at his establishment, on Chambersburg street. We advise our fri

The Final Disposition of Wilkes Booth's Body.

The following passage from Gen. Baker's book, seems to rest the dispute as to the final disposition of Booth's body:

In order to establish the identity of the body of the assassin beyond all question, the Secretary of War directed me to summon a number of witnesses residing in the city of Washington, who had previously known the murderer. Some two years previous to the assassination of the President, Booth had a *tumor* or *carbuncle* cut from his neck by a surgeon. On inquiry, I ascertained that Dr. May, a well known and very skillful surgeon, of 25 years' practice in Washington, had performed the operation.

Accordingly, I called on Dr. May, who, before seeing the body, minutely described the exact locality of the tumor, the nature and date of the eruption, &c. After being sworn he pointed to the scar in the neck, which was then plainly visible. Five other witnesses were examined, all of whom had known the assassin intimately for years. The various newspaper accounts, referring to the mutilation of Booth's body, are equally absurd.—Gen. Barnes, Surgeon-General U. S. A., was on board the gun-boat where the post mortem examination was held, with his assistants.—Gen. Barnes cut from Booth's neck about two inches of the spinal column through which the ball had passed; this piece of bone, which is now on exhibition in the Government Medical Museum in Washington, is the only mutilation of the remains that ever occurred. Immediately after the conclusion of the examination, the Secretary of War gave orders as to the disposition of the body, which had become very offensive, owing to the condition in which it had remained after death; the leg, broken in jumping from the box to the stage, was much discolored and swollen, the blood from the wound having saturated his undergarments. With the assistance of Lieut. L. B. Baker, I took the body from the gun-boat direct to the old Penitentiary, adjoining the old Arsenal grounds. The building had not been used as a prison for some years previously.—The Ordinance Department had filled the ground-floor cells with fixed ammunition—one of the largest of these cells was selected as the burial place of Booth—the ammunition was removed, a large flat stone lifted from its place and a rude grave dug; the body was dropped in, and the grave, filled up, the stone replaced, and there rests to this hour all that remained of John Wilkes Booth.

Mr. Richard C. Washington died in Washington on Friday afternoon, in the sixty-fourth year of his age. He was a direct descendant of Lawrence Washington, the elder brother of the father of George Washington, and was born in Washington county, Virginia. He had been a resident of Washington for many years, and occupied at the time of his death the position of chief clerk in the appointment office of the Post Office Department, and had been connected with this department for over twenty years.

☞The Maryland Republicans are organizing on the basis of free suffrage. A Governor for two years is to be chosen in November next, and Judge Bond, of Baltimore, is prominently named in connection with the Republican nomination for the executive office. He is an earnest and thorough Republican, and would command the votes of Republicans in Maryland.

☞A photograph of Jeff. Davis as he came out of Fortress Monroe, to frame along side of a picture of one of the starved Union prisoners as they were released from Belle Isle and Andersonville, is destined to become a popular work of art, with Copperheads.

KNIGHTS TEMPLAR.—The Grand commandery of Pennsylvania will hold its fourteenth annual conclave in Pittsburg, commencing on the 10th of June. On the afternoon of the 12th there will be a parade of the Sir Knights in full uniform, and they will proceed to the Academy of Music, where an address will be delivered by Rev. Robert H. Pattison, D. D. The installation of grand officers will take place at the same time.

THE Chicago *Times* says that "from traitor's prison, Jefferson Davis has gone forth to assume the place which the future will assign him, as the most colossal character in the history of his time." A certain character called Lucifer had the same privilege, and about an equal historical status.

WISTAR'S BALSAM OF WILD CHERRY.

In the whole history of medical discoveries NO REMEDY has performed so many or such remarkable cures of the numerous affections of the THROAT, LUNGS and CHEST, as this long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy that but few of the many who have tested its virtues by experience fail to keep it at hand as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

UNSOLICITED TESTIMONY.

From REV. FRANCIS LOBDELL, *Pastor of the South Congregational Church, Bridgeport Connecticut.*

"I consider it a duty which I owe to suffering humanity to bear testimony to the virtues of DR. WISTAR'S BALSAM OF WILD CHERRY. I have used it—when I have had occasion for any remedy for Coughs, Colds or Sore Throat, —for many years, and never in a single instance has it failed to relieve and cure me. I have frequently been very hoarse on Saturday, and looked forward to the delivery of two sermons on the following day with sad misgivings, but by a liberal use of the Balsam my hoarseness has invariably been removed, and I have preached without difficulty.

I commend it to my brethren in the ministry, and to public speakers generally, as a certain remedy for the bronchial troubles to which we are peculiarly exposed.

TO OWNERS OF HORSES AND CATTLE.

TOBIAS' DIRECT CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Blind-Staggers, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. These Powders were formerly put up by Simpson I. Tobias, son of Dr. Tobias, and, since his death, the demand has been so great for them, that Mr. Tobias has continued to manufacture them. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Fred. F. Bundy, of Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over 20 running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer anyone to him. Over 1,000 other references can be seen at the depot. Sold by Druggists and Dealers. Price 25 cents per box. Depot, 56 Courtlandt Street, New York. [May 2, 1867.—1m

~~KNOW THY DESTINY.~~

MADAME E. F. THORNTON, the great English Astrologist Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she describes the very features of the person you are to marry, and by the aid of an instrument of her own power, known as the Psychometrope, guarantees to produce a life-like picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and having place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications sacredly confidential. Address in confidence, MADAME E. F. THORNTON, P. O. Box 223, Hudson, New York. [Feb. 25, 1867.—1y

A YOUNG LADY

returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, freckled face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, finally healing the same, and, having the surface as Nature intended it should be, clear, soft smooth and beautiful. FRUIT IMPROVED BY THINNING.

An article in the "Journal of Horticulture" has the following very judicious remarks on the propriety of thinning fruit:

The flavor of fruit, barring extreme sunless seasons, is entirely under the control of the gardener. A clever man can command flavor; a dull man, when he finds his fruit flavorless, makes idle excuses, which should never be listened to. If a tree trained to a wall be allowed to ripen, say ten dozen of fruit, when five or six dozen only should have been left, they, although they may be of a fair size and color, suffer in flavor to an extent scarcely credible. How often has the gardener had occasion to complain of his pears not being good, although produced on fine trees trained against walls? He complains of the seasons but it is in most cases owing to the trees being allowed to bear just double the number they ought to have done. The following ought to be inscribed on every wall and in every orchard-house: By thinning, you make indifferent fruit good. By crowding, you make good fruit bad. If very fine and high flavored fruit is wished for, a tree capable of bearing three dozen of medium sized peaches, should be allowed to bear only twelve or fifteen. This thinning is terrible work for the amateur. It is like drawing a tooth, and every fruit that falls to the ground creates a pang; but it must be done. A small sharp penknife is the best instrument to employ, and is much better than tearing off the fruit with the finger and thumb. A well formed peach or nectarine tree, be it bush or pyramid, with its fruit properly thinned and nearly ripe, is one of the most beautiful articles in the skill of the cultivator can produce.

Let any one who is raising fruit, try the experiment this season by thinning the fruit on a single tree of apples, peaches, pears, plums, &c., where the fruit is too abundant, and he will next year treat all his trees in the same way.

Remedy for Trees Casting their Fruit.

It is well known that although some trees, peach, apricot, plum, apple, &c., are well furnished with blossoms, they often fail in their impregnation, and fall off; and when impregnated and set, they fall off at the stoning. Frequently, although they survive the stoning, they become prematurely ripe and fall off, and very few, if any, of the fruit attain maturity, with no flavor. These failures have been proved to arise from unwholesome food, a remedy for which may be found in the following method: Having selected a tree that is in good condition, and well-furnished with blossom buds, just as the blossoms are beginning to expand, take a potatoe fork, and with it make holes all over the surface of the space occupied by the roots, (which extends as far from the stem as the branches) at about 18 inches apart, forcing in the fork to the full depth of the tines, and give it a gentle heave, by pressing on the end of the handle; then, having dissolved some nitre in water, to the proportion of one ounce to the gallon of water, fill the holes with the solution. No manure must be given; but if, after the stoning of the fruit, the tree should appear unable to sustain its crop of fruit, the following preparation may be given, in the same manner as the nitre: To one gallon of water add one ounce of potash; stir the mixture well, and let it stand for a week or ten days; pour off the solution from the clot, and mix one gallon of this liquid with four gallons of water; give it to the trees as above. The remaining clot may be dissolved by adding to it one quart of slacked lime, and one gallon of water, to one gallon of clot, but this solution must not be given to fruit trees, as it produces the effect which the nitre is intended to remedy. It will, however, prove a good manure for the cabbage tribe, celery, &c.—*Gardener Magazine.*

A New Wrinkle in Horticulture.

At the last meeting of the Agricultural Society of Indiana, the Rev. Mr. Firminger communicated a plan by which the stones of fruit may be reduced or made to disappear, and the pulp be increased in size and improved in flavor. At any time during the cold season select a branch that is to be used afterwards for inarching. Split up carefully somewhat less than a span long. From both halves of the branch thus split, scoop out cleanly all the pith; then bring the split halves together again; and keep them bandaged till they have become thoroughly united. At the usual time, the beginning of the rains, inarch the branch thus treated upon suitable stock; taking for the place of union the portion of the branch first below where the split was made. Upon a branch of a tree thus produced a similar operation is performed, and so on in succession; the result being that the stone of the fruit becomes less and less, after each successive operation. This process has been applied likewise to the grape vine at Malaga, and plants thereby have been produced which bear the finest fruit, without the slightest vestige of a stone within them.

TAN BARK FOR POTATOES.

This subject is brought before the farmers of England, by a communication in the Mark Lane Express. M. R B Bamford claims thirty-five years' experience in this matter; and has issued a pamphlet giving his method of using it, which is in brief the following:—He does not cut his potatoes for setting, but sets them whole, and the largest he can select. The rows are thirty inches apart and the potatoes set out nine inches from each other in the row. The land is plowed only eight inches deep, treads the manure firmly in the furrows, puts in the tubers, and covers them in with tan refuse, nine inches deep, instead of earthing up. In this way he reports that in 1857 he raised 675 bushels of potatoes—not a rotton one among them—to the acre, with nothing but waste tan as a covering. This is of great importance, the tan refuse being of little or no value, and if it can be put to so important and advantageous a use as in this case, it should be widely known and practised.

WASH FOR TREES.—The Horticulturist says that "one pound of potash to six gallons of water is a good wash to apply to trees on whose bodies or limbs are insects, moss, etc."

☞Cayenne pepper, mixed with fine road dust, sifted on young vines, will prevent their destruction by striped bugs. The same mixed with moist meal, will save your chickens from death by "gapes."

A ROARING GEATOR.

"Mr. President—I shall not remain silent, while I have a voice that is not dumb, in this Assembly. The gentleman, sir, cannot expostulate this matter to any future time that is more suitable than now. He may talk, sir, of the Herculean revolutions where republics are hurled into arctic regions, and the work of centuriums refrigerate to ashes—but, sir, we can tell him, indefatigably, that the consequences therefrom, multiplied subterraneously by the everlasting principles contended for thereby, can no more shake this resolution, than the roar of the Niagara rejuvenate around these walls, or the howl of the midnight tempest conflagrate the marble statue into ice. That's what I told them."

☞Learn in childhood, if you can that happiness is not outside, but inside. A good heart and a clear conscience bringing happiness, which no riches and no circumstances alone ever do.

Agricultural Implements.

THE PREMIUM

MOWER AND REAPER

DODGES HARVESTER.

AWARDED the Special Diploma and Grand Medal of *Honor* as the best combined Mower Hand-Raking Reaper and Self-Raking Reaper—on exhibition at the great fair of the St. Louis Agricultural and Mechanical Association October 6th, 1866.

OHIO AND BUCKEYE PATENTS

At the great trial of Reapers and Mowers at Auburn N.Y., in July last by the New York State Agricultural Society, this Machine was awarded the preference over all others in Class No 3. This class was the most important of any as it embraced Mowing and Hand or Self-Raking Reaper in the same Machine.

This Machine has been awarded Medals and first Premiums by the Pennsylvania and Iowa State Fairs, and by hundreds of County Fairs in all parts of the country.—This Machine took the first Premium at the Adams County Agricultural Fair held at Bendersville, September 1866. Also,

Ball's Ohio & Russell's Screw Power

Both first-class Machines, having sold a number of these Machines in the last three years. They have given general satisfaction wherever used. We ask farmers before buying a machine to call and examine these machines before purchasing elsewhere, as they will be able to make a better selection. We could produce quite a number of certificates from some of our best Farmers in the County, but deem it unnecessary, as we warrant these machines to give satisfaction with a fair trial, or no sale. Insured for one season.

Extras always kept on hand. We have made arrangements to have repairing done when needed at any time on moderate terms.

With the above we have for sale a number of valuable farming Implements.

SULKY CORN PLOUGH

Can be used for ploughing and cultivating corn—finishing one row at a time. Can also be used for depositing up corn ground or putting in seeding—by raising the front shovels it can be used for marking out corn ground —marking two rows at a time. A Cornplanter can also be attached, planting 2 rows at a time.

CORN CRUSHERS

For crushing corn in the ear or shelled.

STEEL COMPOSITION BELLS

For Schools, Churches, Farms, &c.

STEEL PLOUGHSMYTH'S PATENT.

HAY RAKES

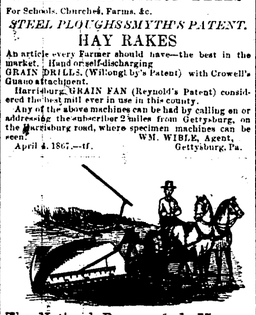
An article every Farmer should have—the best in the market. Hand or self-discharging

GRAIN DRILLS, (Willougby's Patent) with Crowell's Guano attachment.

GRAIN FAN (Reynold's Patent) considered the best mill ever in use in this county.

Any of the above machines can be had by calling on or addressing the subscriber 2 miles from Gettysburg, on the Harrisburg road, where specimen machines can be seen.

WM. WIBLE, Agent,
April 4. 1867.—tf. Gettysburg, Pa.



The National Reapers and Mowers.

HOFFMAN'S PATENTS.

THE No. 1 Machine has Two Driving Wheels. Hinge Joint and Folding Bar, making it very convenient to move from one place to an other; is very simple in its construction, extremely light draught, and durable, cuts 4 feet 10 inches in grass and 5 feet 2 inches in grain; is a Self Raker and Side-Delivery, and is capable of cutting a whole field without binding a shock, and does the most satisfactory work.

This Machine can also be used as Hand Machine without altering its qualities as a Reaper. The Machine is warranted to cut grass as well as any Single Mower that carries the same width. It is a strong two-horse Machine—three or four can be used, if wished, in tally ground.

GREAT IMPROVEMENTS have been made for the coming season.

The Machine is also perfectly balanced, no weight on the horses' necks in Mowing or Reaping.

Always remember that at the Mowing trial last Summer in Gettysburg, in competition with 6 other leading Machines, the above named Machine was awarded the First Premium. This way if you want the best Machine.

No. 2 is a light two-horse Machine, and is differently constructed, cutting on the right-hand side; and in front of Driving Wheels, is a Self-Raker and Side Delivery. The difference in the width of cut is 6 inches.

The shifting lever and the raising and lowering levers are both at the driver's right side, and with his right foot upon a pedal and his left upon a foot step, he has the power and control of the whole machine, he can raise or lower the platform from three to fourteen inches, can throw the machine out of gear, and regulate the rake so as to make the sheaves large or small, and all this at the same time and without retarding the motion or speed of the machine

Keep it before the people that at a fair mowing trial 7 different leading Machines were present at Dillsburg, York, last Summer and the National Machine was awarded the first premium.

All Machines warranted to give satisfaction! For further information apply to

SHIREMAN'S

NATIONAL SELF-DISCHARGING STEEL SPRING TOOTH

Horse Rake!

Patented Sept. 9th, 1862, *and Re-issued Dec. 6th*, 1864.

THIS Rake is an Independent Steel Spring Tooth Rake, and has proven itself to be the most perfect HORSE RAKE now in use. With this Rake the Horse does not walk the Raking and Discharging, by the Driver moving a lever a few inches, which throws it into gear, and as the horse moves forward it raises the teeth and discharges the load, and then shifts out of gear itself, the teeth dropping down ready to rake again. By this operation it is easily understood that the *Raker has hardly any work to do.*

Important improvements have been made of late, making it very simple and durable in its construction. Thousands of them have been sold in the few last years and given the best kind of satisfaction.

☞Circulars giving a fuller description of these Machines can be had by applying to the Agent.

Brinkerhoff's

CORN SHELLER, SEPARATOR AND CLEANER.

The undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it can be safely asserted that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America, and at the request of J. C. Derby, the U.S. Agent, a machine has been shipped to Paris for exhibition. One important feature in this machine is that it will shell ears large, small or crooked, perfectly clean, and separates the cob and shaft from the corn ready for market.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in recommending it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edward Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the N. Y. *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufacturers more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleanses, rapidly and easily, at one operation, as fast as the ears can be put in the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

S. T.—1860.—X.—The amount of Plantation Bitters sold in one year is something startling.—They would fill Broadway six feet high, from the Park to 4th street, Drake's manufactory is one of the institutions of New York. It is said that Drake painted all the rocks in the Eastern States with his cabalistic "S. T.—1860.—X.," and then got the old granny legislatures to pass a law "preventing disfiguring the face of nature," which gives him a monopoly. We do not know how this is, but we do know that the Plantation Bitters SELL as no other article ever did. They are used by all classes of the community, and are a great on Dyspepsia—certain. They are very invigorating when languid and weak, and a great appetizer.

Dyspepsia

PERMANENTLY CURED BY

Sheldon's Dyspepsia Troches.

A Permanent Cure or the Money Refunded

THESE Troches not only give immediate relief but insure a effect a permanent cure for Dyspepsia. They are not a purgative, and therefore their use does not create a necessity for the habitual use of Cathartics. They cause no sickness of the stomach, or faintness, or loss of appetite, pain in the bowels, costiveness, belching of wind, liver complaints, headache and in fact all those disagreeable and dangerous symptoms of this disease, which unfit one for the pleasures and duties of life.

Weak and delicate persons who have been injured by the use of powerful stimulants and purgatives will find them a mild, safe and sure restorer of the digestive organs to their original strength and vigor.

Prepared solely by the Proprietors,
S. J. VANDERSLOOT & CO., Chemists.
No 718 Market st., Philada.
For sale by Druggists generally.
